

UTILITY ASSET MANAGEMENT

Utility Asset Management (UAM) is one of Australia's leading providers of diversified services to utility and energy organisations, government departments, councils and major blue chip companies.

Established in 2000, UAM is known for its consistent provision of safe, high quality services. It recently became a division of UASG servicing customers with offices across Australia.

COMMITTED TO SAFETY

Keeping our people, customers and the general public safe is our highest priority.

Robust development and implementation of Workplace Health and Safety policies, standards UAM is accredited with AS4801 OH&S Management System, ISO9001 Quality Management.

SERVICES

We offer specialist utility services to a wide range of sectors across Australia. Our capabilities and resources are comprehensive, offering efficient workforce management processes to our commercial and industrial customers.

Our products and services include:

- RFD Pole Reinstatement System
- Asset inspection and monitoring
- Electrical overhead construction and maintenance
- Street lighting and public lighting works
- Vegetation management
- Terrestrial Laser Scanning
- Technical services (survey, design and drafting)
- Data capture

RFD POLE REINSTATEMENT SYSTEM

AN ENVIRONMENTALLY FRIENDLY AND LOWER COST ALTERNATIVE TO POLE REPLACEMENT.

Our world class RFD Pole Reinstatement System™ has been specifically developed as a time-saving, cost effective alternative to pole replacement.

The system is designed for easy installation in the most inaccessible of terrains. The patented “Positive Bolted System” of ferrules and bolts allows the system to fully reinstate a pole for optimum strength and sufficient exposure for natural drainage and future inspections.

Australia’s leading pole reinstatement system manufacturer servicing the Utility and Telecommunication Industries.

ASSET INSPECTION AND MONITORING

A RECOGNISED LEADER IN ASSET INSPECTION AND MONITORING SOLUTIONS.

Our expert technicians and resources aim to ensure that your objectives, monitoring and timeframes are met to extend network asset life.

We provide electricity distribution and telecommunications line inspection and rectification, line clearance and service height inspections, pole top photography, electrical network analysis, and many more services.

We provide a variety of services to a wide range of business sectors tailoring services to suit your requirements.

ELECTRICAL OVERHEAD CONSTRUCTION AND MAINTENANCE

PROVIDING YOU SAFE, HIGH-QUALITY ELECTRICAL OVERHEAD AND MAINTENANCE CONSTRUCTION.

We provide safe high quality services to construct, upgrade and maintain electrical networks throughout Australia, including:

- Overhead and underground construction and maintenance
- Service replacements
- Network construction
- 24-hour faults and emergency response
- Meter installs and replacements

LIGHTING AND ENERGY SAVING PROGRAMS

AUSTRALIA'S LEADING LIGHTING AND ENERGY SOLUTIONS.

As the leading provider of lighting and energy saving solutions in Australia, we install, upgrade and maintain lighting products.

We provide tailored energy saving solutions for electrical distribution businesses, network owners, local councils, airports and other government and privately owned organisations.

VEGETATION MANAGEMENT

YOUR TOTAL SOLUTION FOR VEGETATION MANAGEMENT, WE PROVIDE CUTTING EDGE SKILLS, TECHNOLOGY AND SERVICES.

We provide vegetation management and tree maintenance services for utilities, councils, developers and corporate customers utilising highly skilled experienced personnel.

Working to the highest standards of safety and environmental responsibility, we incorporate the latest technology and equipment to ensure all work is delivered on time to industry standards.

TERRESTRIAL LASER SCANNING

MEETING AND SURPASSING YOUR NEEDS WITH OUR SCANNING TECHNOLOGY.

UAM offer spatial data-capture and processing services using Terrestrial Laser Scanning (TLS) also known as LiDAR (Light Detection and Ranging) technology.

The data can be prepared and presented for viewing and manipulation in different spatial computing packages to meet your requirements.

"UAM leads through creative, innovative and safe solutions across a wide range of different assets solutions for our customers."

Stephen Ellich, UASG CEO

TECHNICAL SERVICES SURVEY, DESIGN AND DRAFTING

**A ONE-STOP-SHOP FOR ALL YOUR SURVEY,
